ORLA FILES NI43-101 REPORT ON THE CAMINO ROJO PROJECT

VANCOUVER, British Columbia, Jan. 26, 2018 (GLOBE NEWSWIRE) -- Orla Mining Ltd. (TSX VENTURE:OLA) ("Orla" or the "Company") has filed a technical report prepared in accordance with the requirements of National Instrument 43-101 ("NI 43-101") on the Camino Rojo Gold Project, Municipio of Mazapil, Zacatecas, Mexico in connection with the filing of the Company's Annual Information Form. The technical report has been filed under the Company's profile on SEDAR and will be available on the Company's website.

Qualified Person

The technical report is authored by Matthew D. Gray, Ph.D., C.P.G. and Carl E. Defilippi, RM SME with an effective date of January 24, 2018. Both are independent of Orla and "qualified persons" as defined by NI 43-101.

On behalf of the Board of Directors,

Marc Prefontaine, M.Sc., P.Geo., President & Chief Executive Officer

About Orla Mining Ltd.

Orla Mining owns two advanced stage open pit, heap leach style oxide gold projects in Panama and Mexico. Camino Rojo is an advanced gold and silver project covering over 200,000 hectares in Zacatecas State, Central Mexico. The project is 100% owned and has historical oxide reserves along with historical sulphide resources (which Golcorp retains a back-in right on the sulphides). The Company believes it has exploration potential for additional oxide and sulphide mineral resources. Access and infrastructure are excellent with a paved highway and powerline nearby. A NI 43-101 Technical Report dated January 24, 2018, on Camino Rojo is available on SEDAR. The 100% owned Cerro Quema project in Panama includes a near-term gold production scenario and exploration upside. Cerro Quema's 14,800 Ha concession boasts paved road access, a supportive local population and private land ownership. The Cerro Quema project is currently in the last stage of the permitting process for a proposed open pit mine and gold heap leach operation. Please refer to the Cerro Quema Project - Pre-feasibility Study on the La Pava and Quemita Oxide Gold Deposits dated August 22, 2014, which is available on SEDAR.

Forward-looking Statements

This news release contains certain "forward-looking statements" within the meaning of Canadian and United States securities legislation, including, without limitation, results of exploration and planned exploration programs, the potential for discovery of additional mineral resources and the Company's objectives and strategies. Forward-looking statements are statements that are not historical facts which address events, results, outcomes or developments that the Company expects to occur. Forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made and they involve a number of risks and uncertainties. Certain material assumptions regarding such forward-looking statements are discussed in this news release, including without limitation,
